SALT PRODUCTS CATALOGUE

Raw Salt

Unprocessed natural sea salt harvested from India's prime salt fields, ideal for industrial processing and chlor-alkali industries.

Specifications: 98% NaCl purity | Coarse crystals | Packed in 50kg or bulk bags

Refined Salt

High-purity washed and processed salt, manufactured to meet demanding requirements of food and chemical processing industries.

Specifications: 99.2%+ NaCl purity | Refined & washed | Food-grade & Industrial

Refined Iodised Free Flow Salt

Premium edible salt, fortified with potassium iodate. Triple-refined and processed for excellent free-flowing properties and even distribution.

Specifications: Fortified with Iodine | Free Flow | Edible Grade

Crystal Salt / Crystal Iodised Salt

Coarse white natural salt crystals, sun-dried to lock in essential trace minerals. Available in both unfortified natural crystals and iodine-fortified crystal grades.

Specifications: Natural Crystals | Iodised Option | Coarse Salt

Table Salt

Standard food-grade free-flowing iodized salt, perfectly granulated for household culinary uses, seasoning, and packaging.

Specifications: Household seasoning | Iodised | Standard packaging

Industrial Salt

Engineered salt grades optimized for chemical factories, textile processing, dye manufacturing, and large-scale water treatment systems.

Specifications: Water softener regeneration | Chemical industry grade | High purity

Salt Tablet

High-density compressed salt tablets, specifically formulated for domestic and commercial water softening and regeneration units.

Specifications: Compressed tablets | 99.5% purity | Water softening systems
